

### **Prodent Aligners / Dentist Workflow & Agreement:**

Prodent aligners is an invisible aligner that is created by a revolutionary orthodontic software, operated by our specialized clinical orthodontists team. This Innovative software proposes a treatment plan which generates sequential digital setups that create tooth movement. All aligners will be fabricated at the onset of treatment, numbered, and packed separately.

The aligners will be sent to you at once with a prescribed timed treatment plan for each one. With each case you will receive a summary table indicating the purpose and location of the force points by stage, as well as the detailed sheet per stage which indicates any and all IPR, in addition to the force point magnitude and direction.

This plan will be introduced to you with a digital report plus an animated link to see the teeth movement towards the end results. The treatment plan will be shared with you through Prodent Aligners Online Portal for evaluation, modification request, approval and payment.

You may choose to share the animated link with your patient to explain and simplify her/his treatment procedure and the end results.

Then you may approve the treatment on Prodent Aligners Online Portal so we create the required amount of aligners for your patient within 7 working days after receiving the payment.

### **Start a case with Prodent Aligners by following the simple steps below:**

1. Get a consent letter from your patient.
2. Upload Physical or Digital Impressions scanned files of the patient's teeth, Bite registration, X-rays and Photographs of the patient teeth on Prodent Aligners Online Portal.
3. With the assistance of our specialized clinical orthodontists team, we will suggest a professional treatment plan that will be shared with you on Prodent Aligners Online Portal within 3 to 7 working days.
4. Evaluation of the treatment plan is done by you on Prodent Aligners Online Portal in which you approve it or ask for modification(s). Once approved, we go ahead and create the aligners for your patient to be sent to you within 7 working days after receipt of payment. A summary of the treatment plan will be sent as well with separate details for every set of aligners. In case of modification(s), we modify the treatment plan and upload it again on Prodent Aligners Online Portal for your evaluation until you approve it.
5. The period to wear each aligners set is for 2 weeks moving the teeth 0.2-0.3mm in every step, till the teeth reach their final position.
6. A final single aligner may be needed as a closure to the treatment plan.

### **Indication:**

Diastema, CrossBite, Crowding, Open Bite, Overbite, Edentulous Space Or Free-End Situation. However there are some limitations to the treatment where you need to combine attachments or do extractions or IPR...Etc. Our trained team will be with you step by step to assist you with the movements methods required.

### **Payments Terms:**

Once you upload the enquiry for the treatment (impressions + photos + x-ray) on Prodent Aligners Online Portal, you will receive a bill of AED 1000 in order to start the treatment plan,

Once the case is started, the AED 1000.00 will be included in the estimated cost of the case.

If the case does not proceed, the treatment plan charge (AED 1,000) is not refundable.

**Payment options:**

- o Online payment on Prodent Aligners Online Portal, bank transfer, or cash for the remaining amount is requested before fabricating the aligners.
- o Installment option is valid for the remaining balance as the following:  
 (Treatment plan payment of 1,000) + 1st payment = 50% of the total amount.  
 (Remaining 50% to be paid over the following two months in sequence.

In case there are any changes of the treatment plan due to patient non-compliance with the treatment plan, extra charges will be issued based on the changes.

Please note that this agreement is valid for 1 year from the signing date,  
 Any changes in prices will be notified ahead of time.
